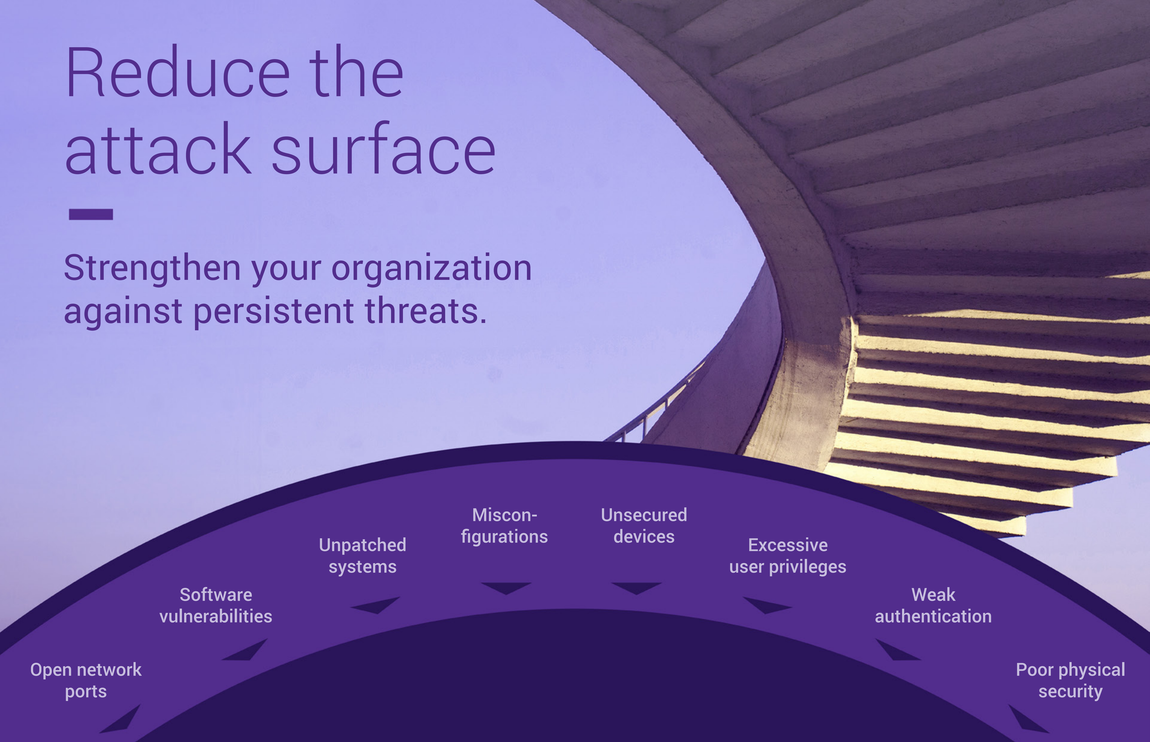
Reduce the attack surface

Strengthen your organization against persistent threats.



Open network ports

Software vulnerabilities

Unpatched systems

Miscon-figurations

Unsecured devices

Excessive user privileges

Weak authentication

Poor physical security

Minimize potential vulnerabilities

that can compromise systems, networks or your organization, whether at the edge, core or cloud.

Prevention strategies

- Zero Trust model
- Regular patches and updates
- Least privilege access
- Application security
- Education and awareness
- AI/ML capabilities
- Professional services and partnerships
- Network segmentation
- Built-in security
- Secure supplier collaboration

Cybersecurity is a continuous journey, not a one-time task.

Don’t let security risks stifle your innovation. Learn more.
