

# Work Smarter, Not Harder

A Triumphant Tale About Deploying Windows Server 2022 on Dell™ PowerEdge™ R750 Servers

Small businesses looking for a stronger security posture have a lot to gain from **Windows Server 2022**.

**Secured-core server**

Certified hardware from OEM partners

**Hardware root of trust**

Trusted Platform Module 2.0 (TPM 2.0) secure crypto-processor chips

**Firmware protection**

Support to measure and verify boot processes

## Introducing Maya and Arturo, two hard-working IT admins.

They have each agreed to take on the challenge of deploying Windows Server 2022.

### Deploying Windows Server 2022 on a Dell™ PowerEdge™ R750 Server

**Arturo** purchases a Dell PowerEdge R750 server and, separately, Windows Server 2022 software from Microsoft. **He plans to install the software himself.**

**Maya**, on the other hand, purchases a Dell PowerEdge R750 server with Windows Server 2022 software pre-installed through Dell Technologies.

### Maya saves time.

**84%**  
less time to deploy<sup>1</sup>

**59**  
fewer steps to deploy<sup>1</sup>

### Maya saves money.

Licensing Cost of Windows Server 2022 Standard on a Dell™ PowerEdge™ R750 Server

Volume licensing (USD)<sup>1</sup>

OEM licensing (USD)<sup>1</sup>

### Maya quickly resolves her support issues.

**Arturo** contacts multiple hardware and software vendors, and finger pointing abounds.

**Maya** uses a single point of contact for support, and quickly resolves issues.

### Windows Server 2022 OEM licensing: faster, less expensive, simpler, and with better support.

**84%**  
less time to deploy a server<sup>1</sup>

**59**  
fewer steps to deploy a server<sup>1</sup>

**28%**  
less-expensive licensing<sup>1</sup>

**1**  
source for hardware and software support

### Be like Maya. Do more with less!
