

Get Order Status & Support fast with Dell Premier

It's easier than ever to manage orders with an array of built-in online features that help track invoices and manage orders throughout the procurement process—all within one portal.

Get real-time order status.

You can easily track and manage your Dell orders, including order status, lead times, shipping details, service tags, invoices and more.

Invoices available online. Whenever you need them.

Once the order has shipped, you can quickly retrieve and download invoices from multiple locations (order support, reports...) in a PDF format.
